Decker Electric

Progress

Convergys Richardson

The Convergys Richardson, TX remodel is nearing completion! Decker Electric is currently on schedule to complete a full, 50,000 SF remodel with generator, complete

service upgrade, 750 telecom drops and a full Gallagher Access Control System in less than two months.

The project, led by Clint Townsend, began June 20th with a two-man demo crew and is now pushing 15-20 electricians and is scheduled to complete the 2nd week of August. We appreciate all the hard work, overtime and effort it has taken to get to this point. Finish Strong!

Safety

Heat Stress

Working in extreme temperatures is not only uncomfortable, but can be life-threatening. With the next few weeks promising temperatures and heat indexes of 100 degrees or more, it is important for workers to understand how to prevent, recognize and treat heat-related illnesses.

Prevention

- Stay hydrated—drink water every 15 minutes
- Take breaks in the shade when necessary
- Wear light-colored and loose-fitting clothing and SPF15 sunscreen

Recognition

- Dizziness or nausea
- Throbbing headaches
- Hot, dry skin with no visible sweating

Treatment

- Find your foreman or project manager
- Get into a cool area and continue to hydrate
