Progress

Geneva Anhydrous Ammonia Plant

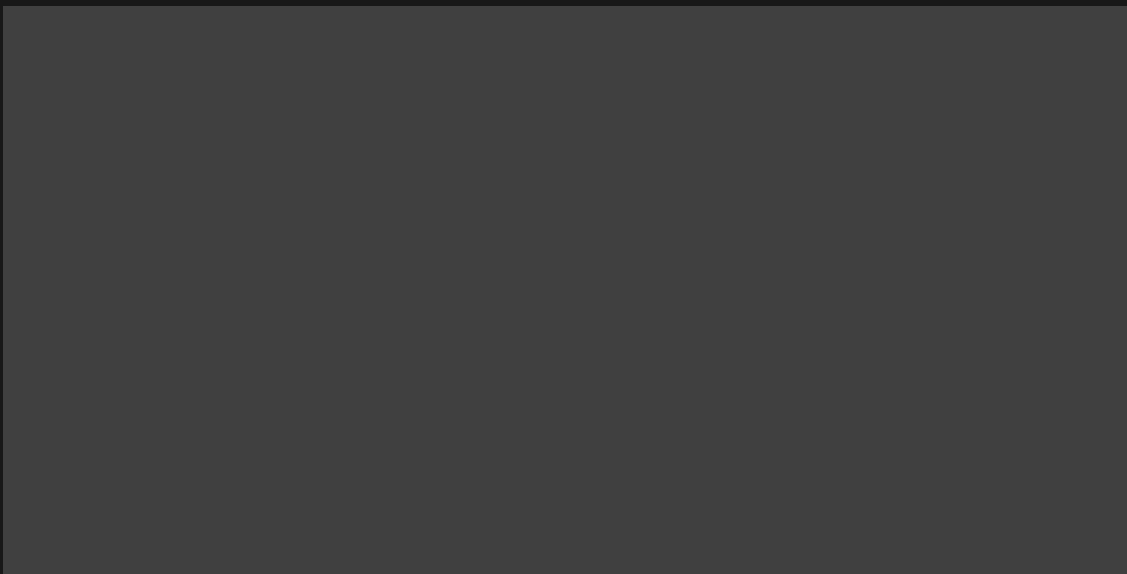

General Foreman Jesse Robinson is leading the crew through the last few months of construction of the Geneva Nebraska Ammonia Plant. Thank you Fortigen and Gorham for including us on your team and to all who have helped support this project!

Progress

UPRR Salt Lake City

Mike Purdue and Bryan Wallace are getting started on the second phase of the fuel management system for UPRR in Salt Lake City. When Complete, all pumps and valves will be automatically controlled and the system will be able to track diesel fuel consumption and storage within 1% accuracy.
