## Notable Work Anniversary

A big thank you and congratulations to Jonathan Spivey for **5 years** at Decker Electric.

Staff

# Kendall Kemp's Racing Career

By day, Kendall works in our purchasing department, by night, he's working on another passion, racing. His dad has been racing for over 30 years and Kendall and his two brothers have followed in his footsteps. Last year, Kendall won four races (two of which his dad finished in second). One of those, the Hutchinson Grand Nationals, was the biggest win of his career. This year, he will be working toward his first points championship at 81 Speedway. Click [here](#) for his racing schedule. Good luck, Kendall!

## Staff

## Walk Kansas

Kristin Christy, Amy Douthitt, Katrina Taylor, Lisa Stafford and Dinah Wiederstein are walking to better health. Their walking team, the *Decker Divas*, is participating in *Walk Kansas* through the Kansas State Extension Program. This initiative involves teams from across the state encouraging exercise, eating right and drinking water. The *Decker Divas* have logged 285 miles in the past six weeks with two weeks to go! Wish them luck as they complete their journey around the state to visit the "8 Wonders of Kansas" challenge. To learn more about *Walk Kansas*, click [here](#).

Progress

# Kirby Yard-San Antonio

Bryan Wallace, John Teeter, and Mike Purdue continue to push production at the Kirby Yard in San Antonio. Underground work has begun, service racks are being mounted, and wire is beginning to be pulled. Boring begins next week.

#### Membership

## Associated General Contractors (AGC) of Kansas

Decker has just joined AGC of Kansas. It is widely recognized as the "Chamber of Commerce for the Kansas Construction Industry." Currently, AGC of Kansas has a membership of 325 construction firms and we are the 16th electrical contractor.

AGC is currently running a marketing campaign to get more people to join the construction industry. We have continued to see a decline in skilled workers, and by 2019, there will be a need for 1.5 million craft workers.

If you are interested in becoming involved in AGC, please contact [Blaine Clark](#) or [Josh Nesbit](#).

#### Membership

## Design-Build Institute of America

Decker has also recently joined the Design-Build Institute of America (DBIA). The mission of DBIA is to "promote the value of design-build project delivery and teach the effective integration of design and construction services to ensure success for

owners and design and construction practitioners." We are excited to be a part of this network of professionals.
