# Decker Electric

---

Progress  
Kansas Ethanol

The Kansas Ethanol plant expansion project hit a major milestone this month when we were able to start filling the #5 grain silo. With the installation of the tray and wire to the top of the new #5 & #6 grain silos, we could terminate motors on the grain unloading drag, grain transfer drag, and grain receiving leg. This allowed the plant to start taking grain at the height of the fall harvest. Decker Electric foremen Scott Nelson and John Perkins have spearheaded the work of about nine electricians to meet this goal.

The two new silos are each 136-feet tall, and required the use of a 150-foot boom lift to install the tray and pull the wire to the top. Decker crews had to be very safety conscience with regard to wind and cold weather when working at these heights. The wind limited the number of days that we could utilize the lift at full height, so planning and coordination was essential to get the work done. Thank you to all who played a role in this project!

Community

**Ronald McDonald House Charities**

RMHC Wichita helps ease the burden on families with sick children. Last year, it supported over 1700 families, all because of the love and generous donations of our donors and volunteers. Decker Electric is a proud supporter of Ronald McDonald House Charities of Wichita. The picture above is of Steve and Lisa Decker at the annual Jingle event. For more information on needs they have right now, click [here](#).

## Staff

# Decker Holiday Party

Save the Date! Decker Electric would like to invite each of you to the 2017 Holiday Party scheduled for **Saturday, January 6th** at the Distillery 244 in Old Town. Decker Electric would like to show our appreciation for the hard work and dedication of each Decker Electric employee that made this year such a success.

Watch your inbox for an invite, and please RSVP no later than **December 8th** so we can ensure we have the appropriate amount of food. If you would like a hotel room, please email Tyler Helget, [thelget@decker-electric.com](mailto:thelget@decker-electric.com), by December 8th. Thank you!
